

STARTING INVESTIGATOR RESEARCH GRANT (SIRG) – REPORTING GUIDELINES

REPORTING TEMPLATE

The Standard Report Template which is available on SESAME is used to gather outcomes and impacts from awards made under the SIRG programme. Guidelines for completion of the standard template are provided at the following link ([Standard Reporting Guidelines](#)). In the case of the SIRG programme there are no co-PIs, therefore that section of the Standard Report Template should be left blank. Information on the PhD student associated with the SIRG award should be entered into the Team Members section.

ADDITIONAL DOCUMENTATION

In addition to completing the Standard Report Template, SIRG award holders must submit a letter from the mentor reporting on the award under the following headings:

- Progress of the research programme
- Progress of the Starting Investigator including relationship with mentor
- Progress of the postgraduate student
- Update on infrastructure available to the Starting Investigator
- Any other issues as appropriate

This letter must be uploaded directly to SESAME using the 'Additional Documentation' upload button.
