

Strategy Development Update Webinar

Dr Peter Clifford
14 December 2018

#SFIstrat2025

Webinar Overview

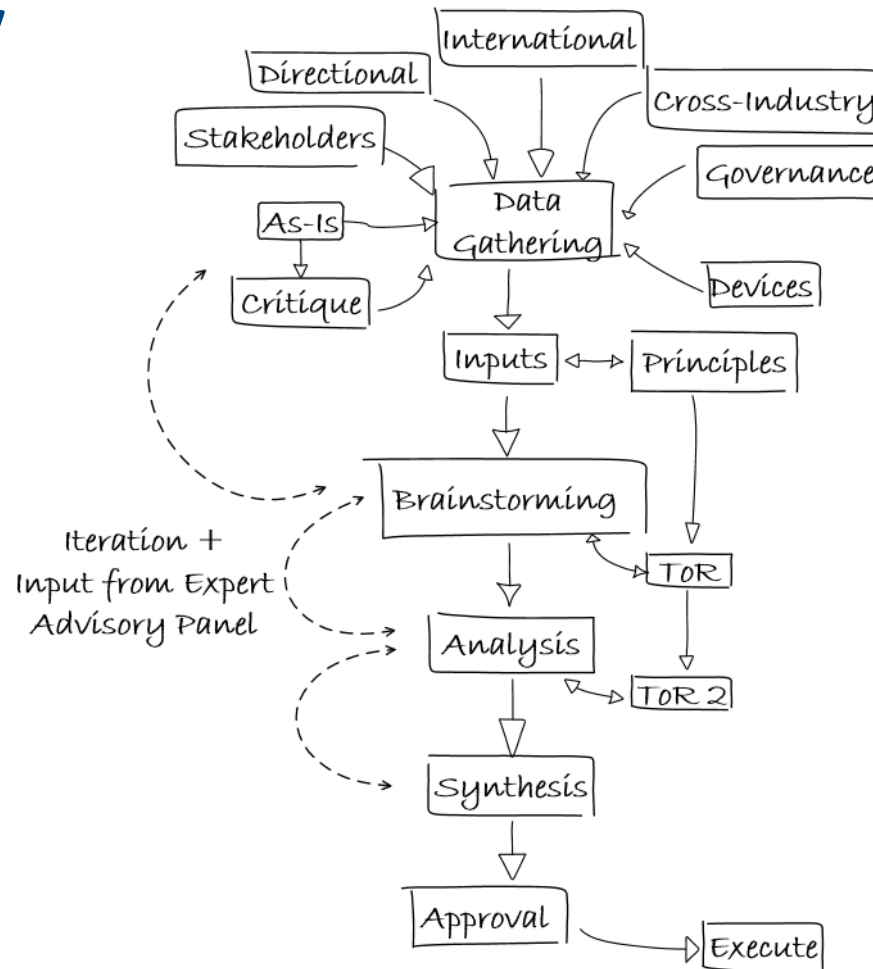

- Background
- What we have done
- What we have asked
- What next
- What we will do in 2019

Agenda2020 has served us well but it's time for a new strategy beyond 2020

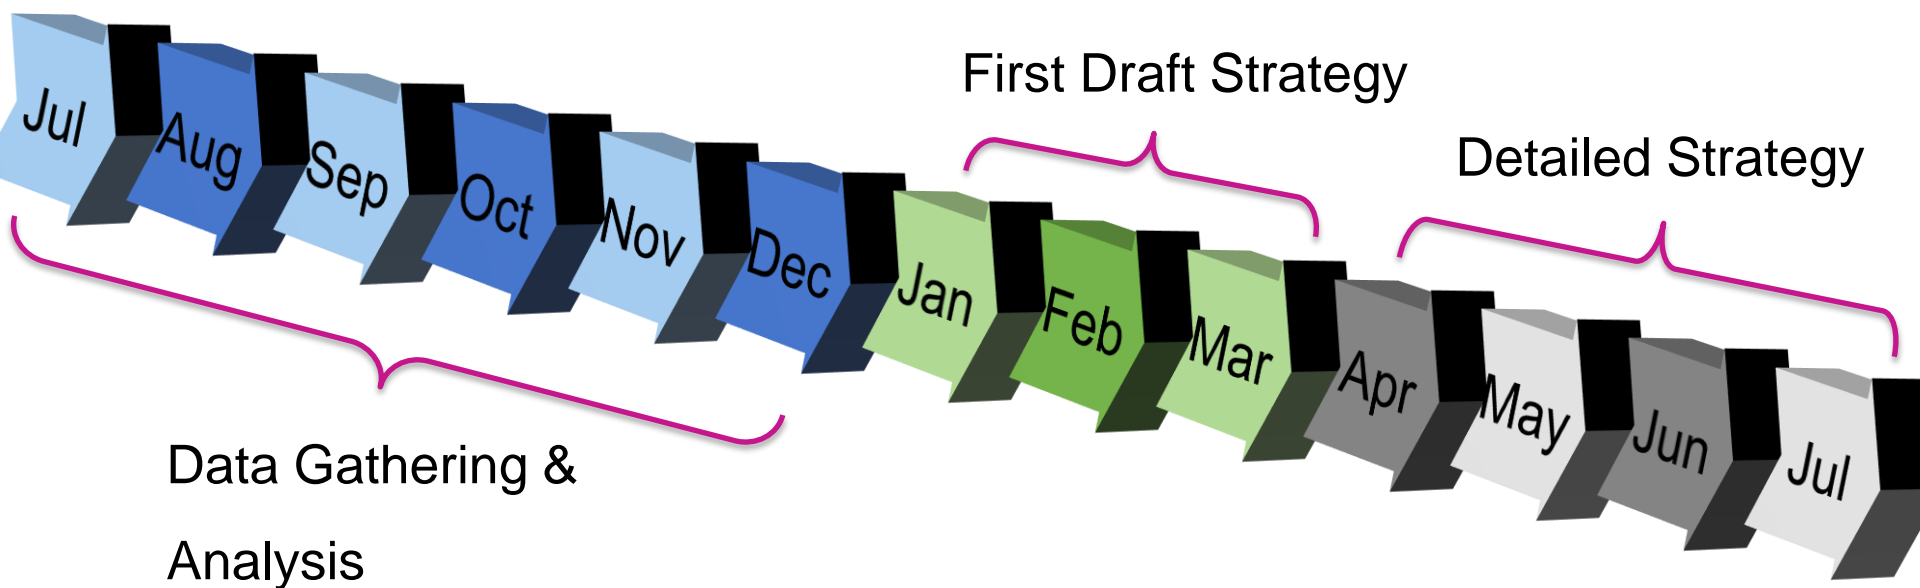

- Agenda2020
 - Fund excellent & impactful science
 - Build partnerships
 - Engage the public
 - Create a lean SFI
- Improved macroeconomic environment
- New Government strategies

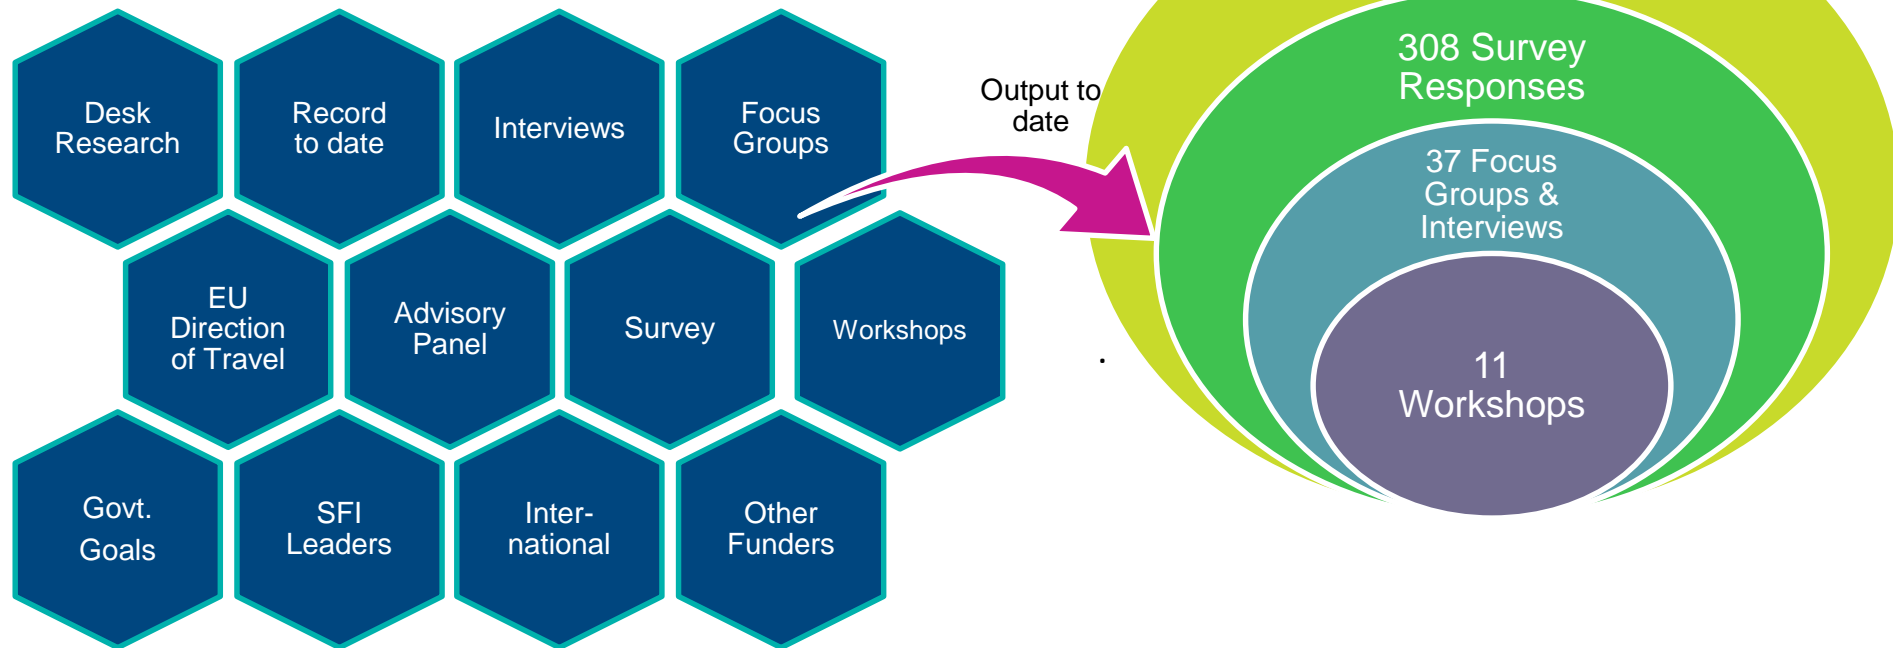

We started with a blank page and have consulted broadly to develop the new strategy

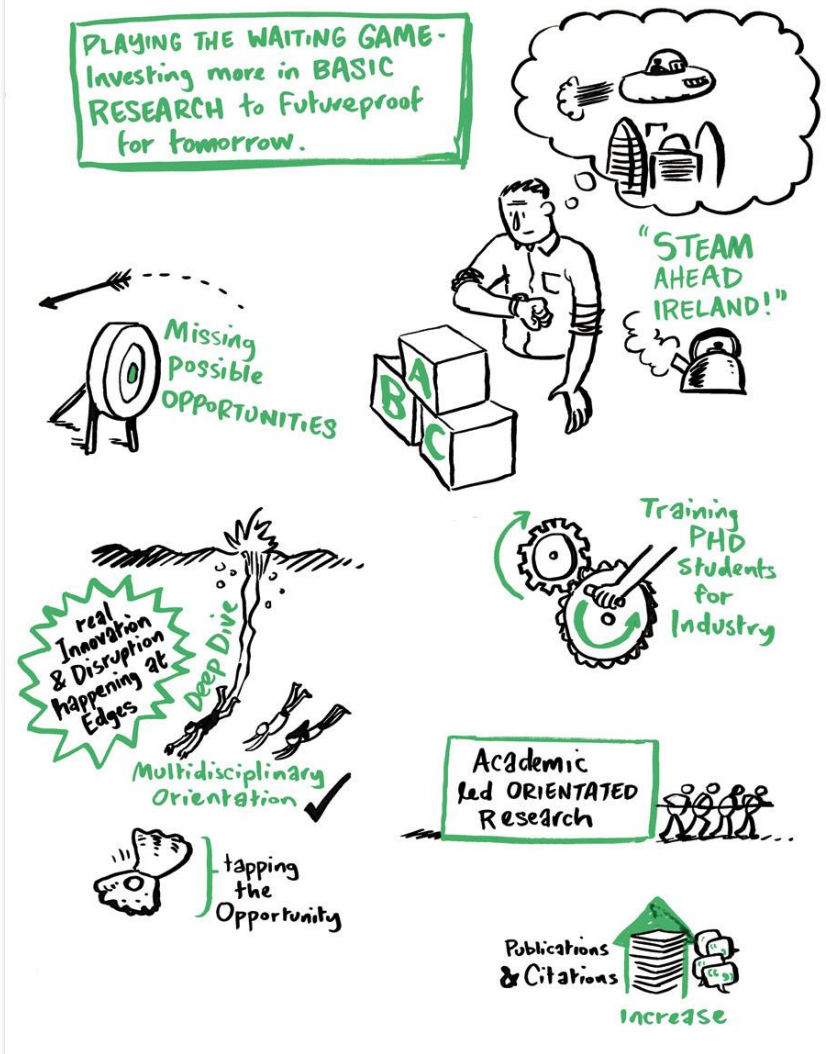

There are 3 broad phases to the development of Strategy 2020-2025

We have consulted with about 1000 individuals to date using a variety of approaches

The workshops were intense, fun and highly productive

149 brainstorm sessions

4,470 Post-Its

1,442 km covered

2,310 Cocktail Sticks

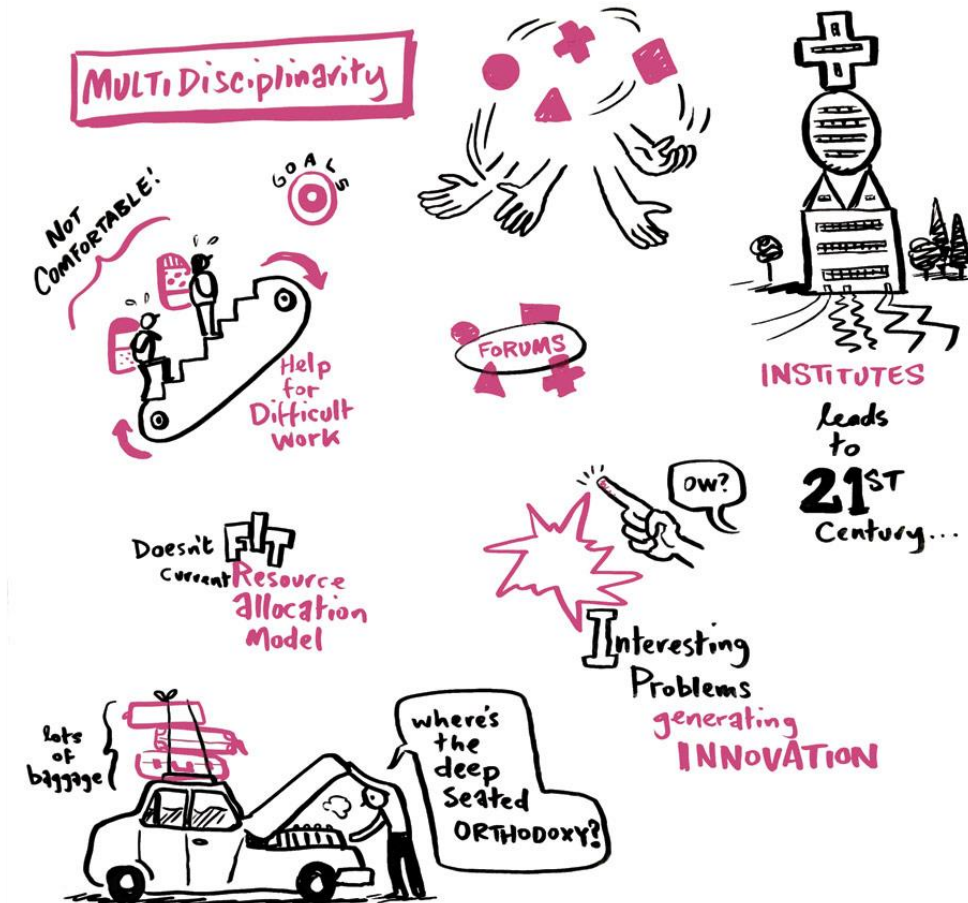

1,463 Marshmallows

77 towers, bridges built!

Analysis of workshop and focus group outputs is ongoing

Some themes resonated more than others with workshop participants

It's too early to talk about findings but there are interesting trends emerging

There is a lot of work ahead of us in analysing the data

- Analysis of the various inputs
- Synthesis and segmentation
- Prioritisation
- Building an outline of the new strategy

We will continue to consult as we further develop the new strategy

Open Online Forum

@sfi's inclusive, online consultation on its future starts today! [#sfistrat2025](#)

- Based on a draft outline of the new strategy

Then

- Draft strategy based on online and other consultation
- Add detail to strategy document
- Socialise widely & update
- Sign-off by Q4 2019

Sincere thank you to everyone who has given of their time and ideas so freely to date!

- Thank you:
 - Everyone who attended a workshop or focus group
 - All those who input into our online survey
 - The leaders who supported us
 - The research offices for all the logistics and planning work

We are actively listening!

Thank You
